Summary

Analyst with a strong foundation in SQL, Python, Database, Excel, Tableau, and Power BI. Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments.

Skills

Programming & Querying: SQL, Python, Java, PostgreSQL, T-SQL, Object-Oriented Programming (OOP)

Databases & Database Administration: Database Management Systems (DBMS), MySQL, SQL Database Administration, Stored Procedures, Databases

Data Visualization Tools: MS Excel, Power BI, Tableau Prep, Tableau

Analytical Abilities: Data Cleaning, Exploratory Data Analysis (EDA), Insight Generation, Descriptive Statistics, Data Analysis

Business Intelligence & Big Data: Business Intelligence (BI), Big Data, Data Visualization

Web & Application Development: Web Development, Back-End Web Development, API Development, React.js, Android Development, Web Applications

Systems & Methodologies: System Architecture, System Deployment, Agile Methodologies, Project Planning and Management, Computer Systems, Usability

Academic & Practical Projects

Data-Driven Bakery Optimization Project

Final Year Project

- Designed a data-driven, **just-in-time analytics solution** for a family-run bakery.
- **Analysed sales**, customer demand, and inventory data.
- **Built dashboards** to track demand patterns and reduce waste.
- Applied **descriptive and diagnostic analytics** to support decision-making.
- Focused on real-world business adoption and ongoing usage strategy.

E-Invoice API Generator

Group Project – Master's Program

- **Designed and developed APIs** for generating electronic invoices.
- Worked on **database schema design**, SQL queries, and data validation.
- Collaborated in an **Agile team environment**.
- Project successfully completed last year.

Database Management System – GlobalCarHire

Group Assignment

- Designed a centralized cloud-hosted database system.
- Created **EER diagrams** and mapped them to relational models.
- Normalised schema up to **BCNF**.
- Implemented **stored procedures** for booking and return operations using **T-SQL**.

Data Visualisation Projects

- Created dashboards using **Tableau and Power BI**.
- Worked with datasets related to business performance and football analytics.
- Focused on **clarity, usability, and insight-driven visuals**.

Data Insights for Football Analytics

Personal Project

- Cleaned and organized large **football datasets** (FIFA, UEFA, etc.).
- Created **interactive dashboards** on Tableau to highlight **player performance** and **match trends**.

Extracurricular/Certifications

- **Data Analytics Bootcamp** — Preboard Academy
- **Create Agents in Microsoft Copilot Studio** — Microsoft
- **Project Management Foundations** — LinkedIn Learning
- **Introduction to Data Warehouse** — LinkedIn Learning
- **SQL Basic to Advanced Bootcamp** — techTFQ
- **SQL for Data Science** — Great Learning
- **Database Management System** — Great Learning

Education

Master of Information Technology

Graduated: 2025

The University of Newcastle Australia, Sydney

BSc (Hons) Computing, First Class

Graduated: 2022

Coventry University, UK (Softwarica College of IT & E-Commerce, Kathmandu, Nepal)
